Current

Acoustic Ceiling Panel

filzfelt

Current lets the noise drift away.

Inspired by the movements of the ocean, Current is a suspended panel that ripples across the ceiling in soothing waves of pure wool felt. Combined with a formed layer of recycled substrate, Current turns the sound down while bringing visual interest overhead. Panels are lightweight, easy to hang, and pair the softness of felt with acoustic performance.

Current was designed by Mia Cullin, an accomplished interior architect and product designer based in Stockholm, Sweden who focuses on traditional craftsmanship and striking construction.

filzfelt
"We, as designers, have a responsibility to challenge every new product we make in a world that abounds with things: Does it have character? Does it tell a story? Does it have the force to crave its own place among existing objects?"

– Mia Cullin, designer of Current
Axonometric - Side A
Side A has one convex curve in the middle at the top and bottom rows.
Axonometric - Side B
Side B has one concave curve in the middle at the top and bottom rows.

Suspension Options

Suspension Cable with Sliding Cable Gripper (Shown)
Also available with Suspension Rod

Ceiling Attachment Options
for Suspension Cable
None

No Ceiling Attachment Hardware Provided
Unless Otherwise Specified

Ceiling Mounting Plate

Ceiling Mounting Plate includes Mounting Plate with
Cable Gripper (ceiling fasteners not included)

For details of suspension + ceiling attachment options, please contact FilzFelt Customer Service

Product	Current
Designer	Mia Cullin
Content	100% Wool Design Felt + Akustika Substrate (60% post-consumer recycled content)
Panel Size	4'-0" x 5'-0" (124.5 x 153.7 cm)
Thickness	3 3/8 in (8.6 cm)
Thickness Tolerance	Panel size may vary ±1/2 (±1.3 cm) in thickness and ±1/4 (±6.4 mm) in width
Edge Option	Exposed
Color + Layout Option	1-Color per panel Current has a side A and B based on the curves within the pattern. Specify sides A or B for the panel layout. Side A has one convex curve in the middle at the top and bottom rows. Side B has one concave curve in the middle at the top and bottom rows.
Suspension Options	Suspension Cable Suspension Rod
Suspension Points	Twelve suspension points per panel
Ceiling Attachment Options for Suspension Cable	None Ceiling Mounting Plate
Durability	Contract or residential
Lead Time	Made to order and certain lead times will apply
Installation	Installs with twelve suspension drops included per panel with suspension cables + sliding cable grippers or sliding suspension rods. Sliding cable grippers and suspension rods may be repositioned along track in top of panel. Optional ceiling attachment includes ceiling mounting plates (for suspension cable only). Suspension cables or rods come in 3'-0" (91.4 cm) length and additional length is available for an upcharge. Actual ceiling connection depends upon ceiling type and ceiling fasteners not included. Refer to Current Installation Instructions for complete guidance.
Maintenance	Vacuum occasionally to remove general air-borne debris. Should soiling occur, spot clean with mild soap and lukewarm water. Avoid aggressive rubbing as this can continue the felting process and change the surface appearance of the felt. Refer to Product Maintenance and Cleaning Guide for detailed care instructions.
Variation	Wool felt is a natural material and color variation and inclusions of natural fiber on the surface are evidence of the 100% natural origin of the material. Product color is only indicative, as it is not possible to assure consistency of color in a natural product due to the natural color of raw wool and absorption of dyes. Color matching cannot be guaranteed on shipments and variation will be more pronounced beyond the normal commercial range.
Environmental	100% Wool Design Felt is 100% biodegradable/compostable and Akustika 10 contains minimum 60% post-consumer recycled content and is 100% recyclable Contains no formaldehyde, 100% VOC free, no chemical irritants, and free of harmful substances 100% Wool Design Felt and Akustika 10 contribute to LEED© Download Declare Label Living Building Challenge Criteria Compliant Oeko-Tex© Standard 100 Certified Product Class II (100% Wool Design Felt + Akustika 10 Substrate) Meets VOC test limits for the CDPH v1.2 method
Acoustics	ASTM C 423: NRC – 0.55, SAA – 0.53
Colorfastness to Light	Class 4–5 (40 hours)
Colorfastness to Crocking	Class 3–4 (wet), Class 4–5 (dry)
Flammability	Test reports available upon request
