# CO Adaptive Architecture

<b>Specifier</b>	CO Adaptive Architecture
<b>Location</b>	Brooklyn NY
<b>Products</b>	Akustika 25 Baffles + Akustika 10 Wall
<b>Felt Colors</b>	100 Wollweiß, 110 Rohweiß, 150 Weiß, 160 Beige, 200 Natur
<b>Photographer</b>	Peter Dressel

For their design studio in Brooklyn, New York, CO Adaptive Architecture applies a variety of sound-absorbing products, all in pure wool felts. In the open office, Akustika 25 Baffles hang in a beautifully subtle gradation of natural white wools across the ceiling. And in a conference room, custom Akustika 10 Wall panels in a soft grey are sized to fit the room's unique angles and architecture.
