

Commerce Bank
Project Profile

Commerce Bank

Specifier V Three Studios

Location St. Louis MO

Product Rain

Felt Color 150 Weiß

For the Clayton Branch of Commerce Bank, V Three Studios designed and modernized the space to align with Commerce's new banking approach that focuses on personalized customer interaction while maintaining a space that is open and inviting. In a series of private meeting rooms, Rain lines the walls providing a sound-softening backdrop to maintain acoustic privacy while the 100% Wool Design Felt in 150 Weiß allows the small spaces to feel light and open.
